

# Downloading and Installing Seamly 2D

FOR MAC OS (MONTEREY)

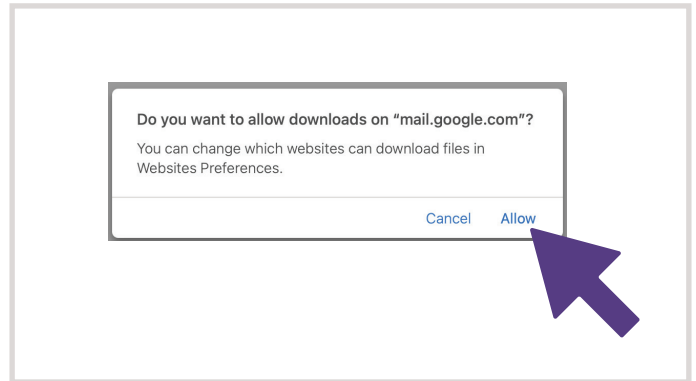

## Step 1

Click on the **download** link in your email from Seamly Systems.

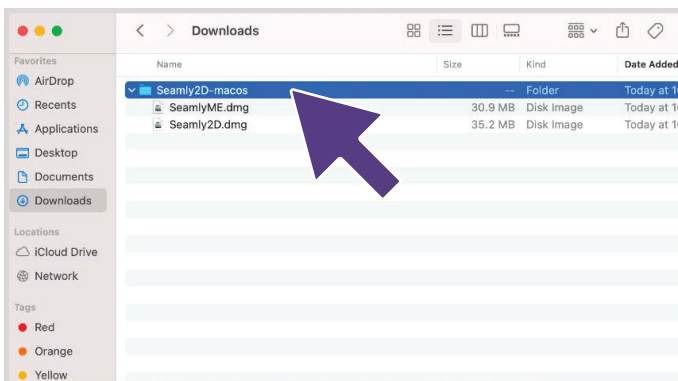

## Step 2

Click on **Allow** in the popup window.

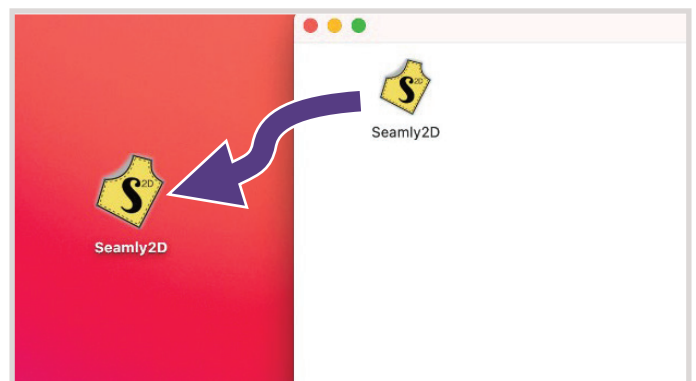

## Step 3

Go to Downloads and click on **Seamly2D-macos** to show the two .dmg files Seamly2D.dmg and SeamlyME.dmg. To see your Downloads you may need to change your Finder Preferences.

## Step 4

Click on **Seamly2D.dmg** to bring up the icon, and drag the icon to your desktop:

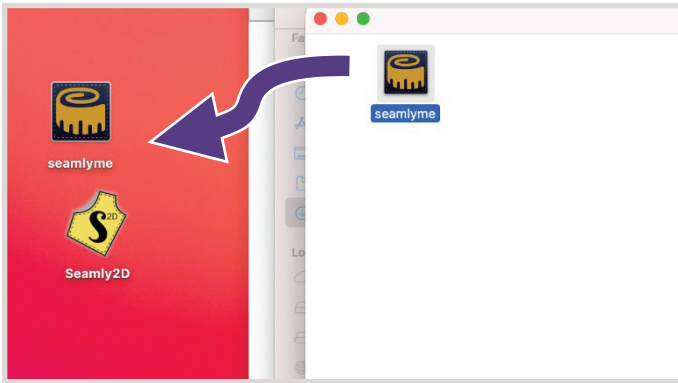

# Downloading and Installing Seamly 2D

FOR MAC OS (MONTEREY)

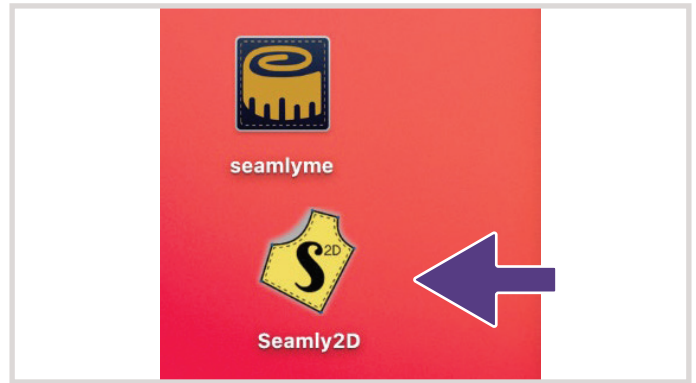

## Step 5

Go back to Downloads, click on **SeamlyME.dmg** file to bring up the icon, and drag the icon to your desktop.

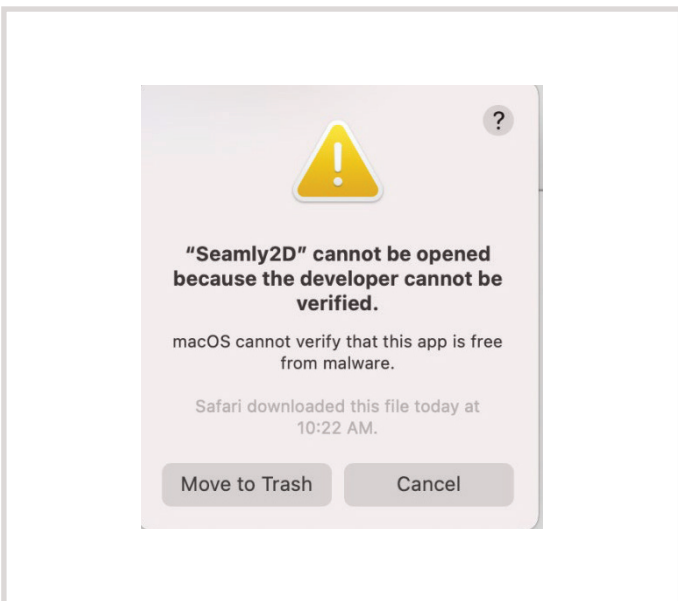

## Step 6

Click on the **Seamly2D** icon on your Desktop.

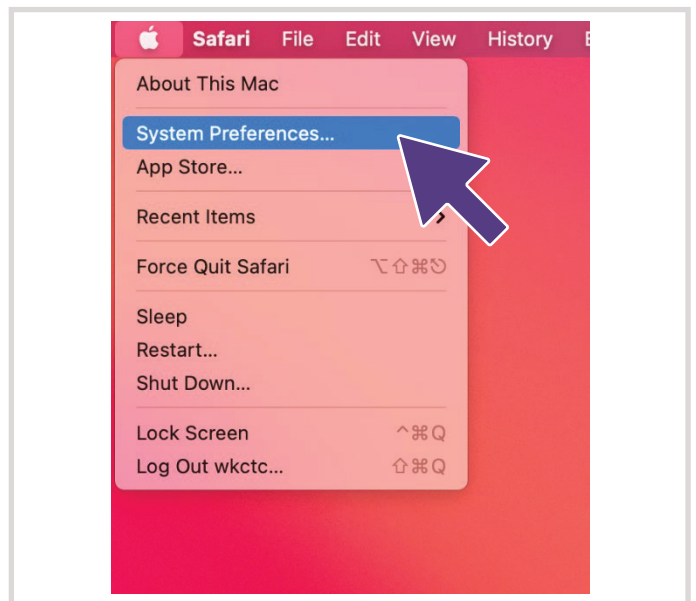

## Step 7

You will see this message, don't select either option in the popup message.

## Step 8

Go to your Apple System Preferences.

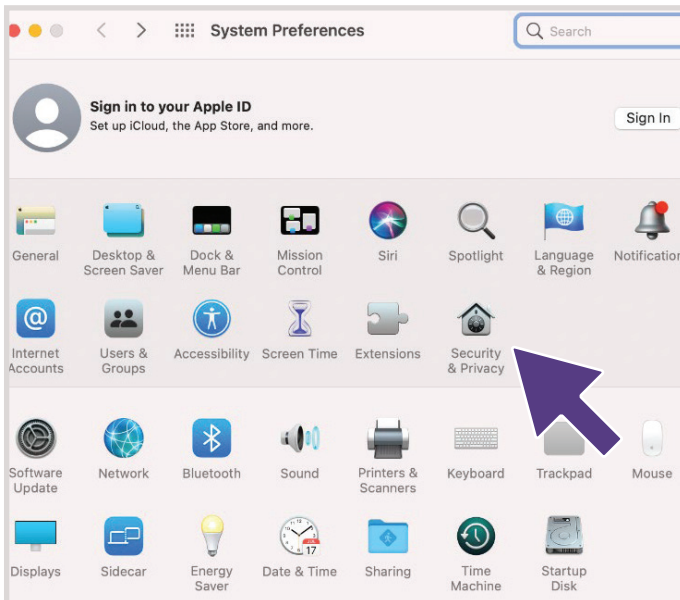

# Downloading and Installing Seamly 2D

FOR MAC OS (MONTEREY)

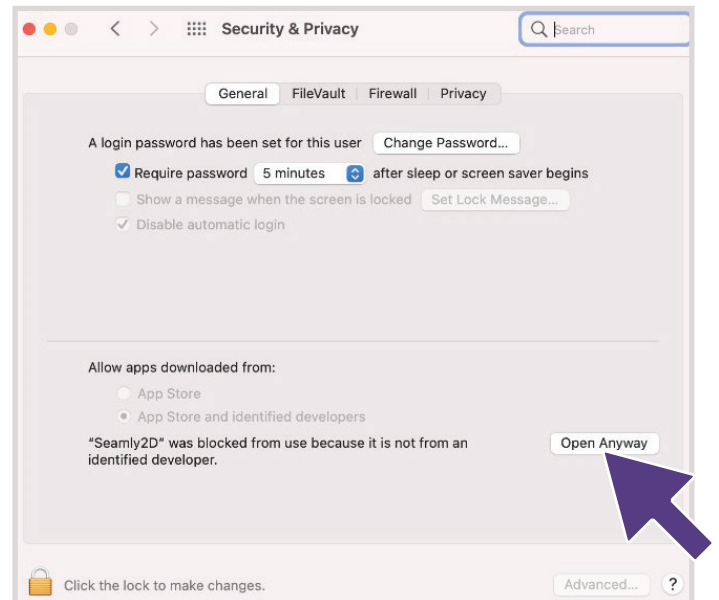

## Step 9

Click on **Security & Privacy**.

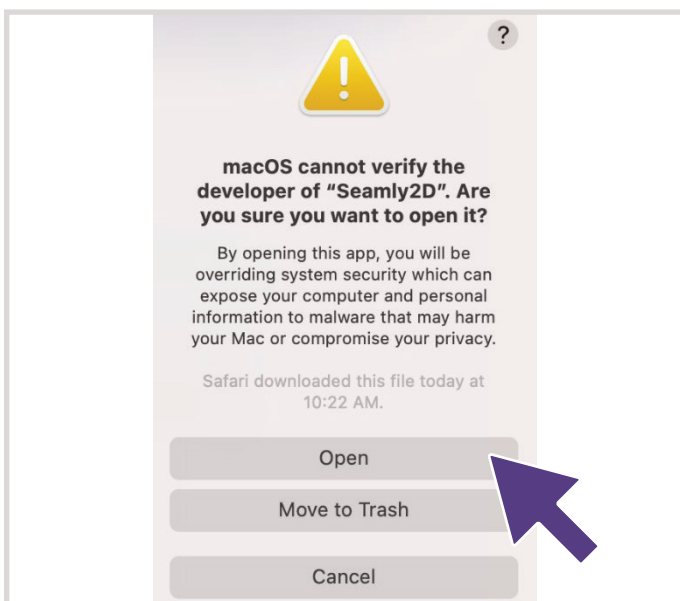

## Step 10

Click on **Open Anyway** in the popup message.

## Step 11

Click on **Open** in the popup message.

## Step 12

Your system will now allow you to run Seamly2D!
